🌟 Opening Animation

Scene 1 - Black Screen (Initial Load)

- Full dark navy blue background
- A faint glow appears in center, could be sky blue
  https://www.dylanbrouwer.design/

Then:

- A 3D monitor slowly fades into view.

Camera angle:Slight perspective (not flat front). Upon scrolling it could be flat, but in the initial stage it should be slightly tilted in any angle.

Inside the monitor:

- Our glowing logo on a dark background.

Very minimal UI elements:(if possible)

- Soft reflection on monitor glass
- Subtle light sweep across screen

NOTE: No aggressive animation, all should be smooth.

Scene 2: Transition to Main Website

The logo scales down and becomes:

- Either your navbar logo(Just like jeskojets.com)
  OR
- Dissolves into hero headline, and then the PRECUT STUDIO text logo appears there.

Whatever is easier!

Then the main hero content appears,the headline fades up.

Now we're officially inside the site!

Why This Is Strong

It:

- Feels cinematic
- Creates brand memory
- Makes user participate (scroll to enter)
- Builds anticipation

But it doesn't waste time.

Total duration:

- ☐ 2–4 seconds max depending on scroll speed.

Very important:

Allow users to skip.

Options:

- “Skip Intro” small text
  OR
- If user scrolls fast → immediately transition

Never trap users.Luxury is smooth, not forced.

Nav Bar

NAVIGATION STRUCTURE

Top Left Navigation:

- Our work
- Why us

Top Right Navigation:

- Book a Call (Primary CTA button style)
- Pricing
- More section with dropdown (like this website's header: www.dsqr.studio/)

Make "Book a Call" visually different:

- Solid gradient background (Navy blue and sky blue)
- Slight glow or shiny animation (like this website's BOOK A CALL: www.dsqr.studio/)
- Rounded corners

Inside "More" dropdown:

- About Us
- Privacy Policy
- Terms & Conditions
- Affiliate Program

Keep dropdown minimal

💬 Hero Statement

Hero Text:

Keep the hero text center aligned

Unlimited video editing
One subscription, Zero bottlenecks.

Brand Showreel(Main video of our website to say who we are):

Flow will be

- Hero text
- Slight scroll
- A video frame appears below
- As user scrolls more → it expands and becomes dominant on screen, and the upper hero text becomes blurry
- Example: lusion.co/

NOTE:

DO NOT:

- Force autoplay the video with loud sound, keep muted
- Make it full screen instantly
- Make user wait to hit play

Our goal is - with video it should enhance, not interrupt the smoothness.

🔥 Portfolio Showcase

Portfolio Showcase(MOST IMPORTANT PART):

After a slight scroll, the PORTFOLIO part will appear.

Headline:

Everything You Need.
In one *Creative Studio*.

Supporting Text:
From short-form to brand films, we turn simple footage into performance-driven cinematic content.

Portfolio video's Layout & Animation Direction:

Marquee Scroll

- Horizontal auto-moving row (example: www.dsqr.studio/)
- Continuous loop
- Videos muted, subtle movement
- On hover → enlarge slightly

Animation Part Idea

Inspiration: https://www.framer.com/

👥 Testimonial

Testimonials:

After scrolling up from the Portfolio section, there will be a text coming up, with subtle animation

Submit your request.
We handle the execution.
You focus on growth. (can see example here: www.dsqr.studio/)

Animations u can do:

- As user scrolls, each line reveals with highlight sweep (like a subtle underline animation)
- Or each line fades in with slight upward motion
- Or word-by-word reveal (but slow)

Avoid heavy typing animation here.

Let it feel intentional.

Testimonial Section:

Upon scrolling those texts, those will go up and fade out or blurred, after that,

Heading text:

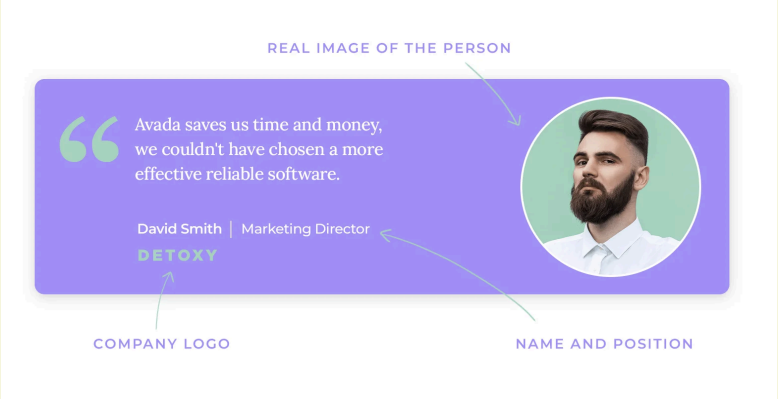
Success Stories
from the Creative Frontline

Assisting text:

Trusted by creators and brands who demand performance-driven visuals.

Testimonial Layout:

Will be like this



- According to our branding guide and colors.
- For the details, you can ask me.

💲 Pricing

Subscription Model

Section name will be Subscription Model. After scrolling up a bit,

Heading text:
One Scalable Subscription.
Built for Brands That Move Fast.

Assisting text:
Unlimited video editing. Flexible plans. Built to scale with you.

Then on the left side, or slightly below, there will be 3 sections:

STARTER — $399 USD/month

Best for individual creators & early-stage brands.

Includes:

- Unlimited video requests
- 1 active video every 48 hours
- Unlimited revisions
- Monday–Friday workflow
- Upgrade or downgrade anytime

PRO — $699 USD/month

Best for scaling brands & content-driven teams.

Includes:

- Unlimited video requests
- 2 videos every 48 hours
- Unlimited revisions
- Dedicated Project Manager
- Priority turnaround
- Monday–Friday workflow
- Upgrade or downgrade anytime
- Enhanced motion graphics upon request
- Advanced color grading

AGENCY — $1,199 USD/month

Built for agencies & high-volume brands.

Includes:

- Unlimited video requests
- 4 videos every 48 hours
- Unlimited revisions
- Dedicated Project Manager & editor
- Highest queue priority
- Free thumbnails for every video
- Advanced motion + sound design
- Monday–Friday workflow
- Upgrade or downgrade anytime

Layout Suggestion

Three cards side by side.

Middle plan slightly highlighted (Pro).

- Slight scale difference
- Soft glow
- “Best deal” tag in the corner (example: becreatives.co/pricing)

Animation For Pricing Section

As section scrolls in:

- Heading fades up
- Supporting text fades
- Pricing cards stagger in (left → right)
- Slight upward motion
- Hover: card lifts slightly

When user hovers a plan:

- Subtle background shift
- Price slightly scales

NOTE: at the bottom of pricing section, can keep very small text:

Transparent pricing. No hidden fees.

❓ CTA Section

After a bit of scrolling, CTA section will come.

Why Us?

Let’s Make Magic Together.

No contracts. No delays.
Just consistent, high-performance content — delivered when you need it.

Schedule a quick strategy call.
Your next level starts here.

Preferred Layout:

Left side:

- Headline
- Supporting text
- Short reassurance line
- Primary CTA button

Right side:

- Embedded calendar preview (or visual calendar mockup)

Important:
- Make the calendar feel integrated, not pasted.

Subtle shadow.
- Rounded edges.
- Clean frame.

At the bottom there will be basics, like about us, contact us, terms & conditions, privacy and policy. And all the other things like [dsqr.studio]
